

Computing and the BCS are pleased to announce the finalists for the all-new UK IT Industry Awards 2009.

It has been a very competitive selection process, with a lot of high-quality entries, and those who have made the shortlist can be justifiably proud of their achievement.

The new awards programme merges the longstanding *Computing Awards for Excellence* and the BCS IT Industry Awards to create a platform for the entire UK IT profession to showcase and celebrate best practice, innovation and excellence. The winners will be announced at the lavish prizegiving ceremony, to be held at the Battersea Park Events Arena in London on Thursday 12 November 2009.

To book your table at what will be the biggest night of the UK IT calendar, visit our web site at www.computing.co.uk/awards.
